7(b) Development		(40,000)	(24,000)
Total		(40,000)	(24,000)

The outlays to be shown in this column are the estimates made for this quarter in the previous quarterly report. When these estimates differ by more than 15% from the actual outlays reported in Item 1(b) of this report, provide an explanation of the reason(s) for these differences.

Notes:

1. CreditPlus Facility with Bank of New Zealand – akin to a 'revolving credit' style facility which is fully redrawable and repayable at any time. Facility is secured against certain major pieces of mobile mining equipment.
2. Development expenditure during the current quarter has been significantly lower than forecast primarily due to a rephrasing of the timing of certain items of expenditure.
